

TERRABLAZE ADVENTURES

TREK MORE. EXPLORE DEEPER.

Website Development Brief & Roadmap

Prepared for: Web Developer | Kathmandu, Nepal
Domain: terrablazeadventure.com | WhatsApp: +977 9816261447

1. Project Overview

TerraBlaze Adventures is a tour & trekking company based in Kathmandu, Nepal. We need a **high-quality, modern, fast, mobile-responsive website** to showcase our Himalayan trekking packages and generate enquiries (leads) from international and domestic trekkers.

Primary goal: Generate trek enquiries via WhatsApp + enquiry forms.

Target audience: Trekkers from USA, Canada, Australia & all of Europe.

Brand vibe: Premium, adventurous, trustworthy, clean. Big cinematic mountain visuals.

Tagline to use throughout: *"Trek More. Explore Deeper."*

IMPORTANT — NO PRICES ON THE WEBSITE. Do not display any package prices anywhere on the site. Pricing is shared privately through itineraries/quotations after the customer enquires. Every "price" area must be replaced with a **"Get Quote"** / **"Enquire Now"** button instead.

2. Home Page — Scenic Video Requirement (Key Feature)

The home page is the most important page and must feel cinematic. The core requirement:

★ **For each trek showcased on the home page, a high-quality scenic background VIDEO of that specific trek region should play** (auto-play, muted, looping) in its section or card. When a visitor hovers/scrolls over a trek, the relevant mountain video plays in the background.

Home page structure (top to bottom):

- **Hero section** — Full-screen cinematic mountain video (auto-play, muted, loop) with the logo, tagline "Trek More. Explore Deeper.", and two buttons: [Explore Treks](#) [Enquire on WhatsApp](#)
- **Featured Treks grid** — One card per trek (5 treks). Each card shows: trek name, a short scenic video or video-on-hover of that region, duration, difficulty, and a "View Details" button. (No price on card.)
- **Why Choose TerraBlaze** — Safe travel, expert local guides, unforgettable experiences, fully customizable itineraries.
- **About / trust strip** — Kathmandu-based, licensed, experienced Sherpa guides.
- **Testimonials / Reviews** — Space for Google/TripAdvisor style reviews (can start with placeholders, real ones added later).
- **Call-to-action band** — "Ready for your adventure?" with WhatsApp + enquiry form.
- **Footer** — Contact, social links (Facebook, Instagram), WhatsApp, quick links, copyright.

Technical note on videos: Use optimized/compressed web videos (MP4/WebM) so the site stays fast. Lazy-load videos, provide a poster image fallback, and on mobile consider showing a high-quality still image instead of autoplay video to save data. We will provide the video clips for each trek region (Everest, Annapurna, Manaslu, Langtang).

3. The 5 Trek Packages

Each trek below needs its own dedicated detail page. Full day-by-day content, photos, and itinerary text are provided in the 5 PDFs we are sending alongside this brief. **Remember: show duration & difficulty, but NOT price.**

Trek Name	Duration	Region	Highlight
Annapurna Base Camp Adventure	11 Days	Annapurna	ABC (4,130m) via Machhapuchhre Base Camp, Ghandruk, hot springs
Annapurna Circuit Explorer (Tilicho Lake & Ice Lake)	14 Days	Annapurna	Thorong La Pass (5,416m), Tilicho Lake, Muktinath
Ultimate Manaslu Circuit (via Arughat)	14 Days	Manaslu	Larkya La Pass (5,165m), restricted area, Tibetan culture
Langtang Valley Adventure	11 Days	Langtang	Kyanjin Gumpa, Tserko Ri (4,984m), yak cheese factory
Everest Base Camp Trek	14 Days	Everest	EBC (5,364m), Kala Patthar (5,550m), Namche Bazaar

4. Required Pages (Site Map)

Page	What it contains
Home	Cinematic hero video, featured treks with scenic videos, why-choose-us, reviews, CTA, footer (as in Section 2)
All Treks	Grid of all 5 treks with filters (region / duration / difficulty). No prices — "Enquire" button on each.
Individual Trek Page ×5	One per trek. The most important pages — see structure in Section 5.
About Us	Company story, mission, team/guides, why trek with us, license & registration info for trust.
Contact	Enquiry form, WhatsApp button, phone, email, Kathmandu office address, Google Map embed.
Blog 	For articles like "Best time for EBC", "Annapurna packing list" — brings free Google traffic. Simple CMS so we can post ourselves.
FAQ	Permits, visa, altitude sickness, insurance, fitness, best season, what's included.
Legal	Privacy Policy, Terms & Conditions, Booking/Cancellation policy (content from our PDFs).

5. Individual Trek Page — Required Structure

Each of the 5 trek pages should follow this layout (content comes from the matching PDF):

- **Hero banner** — Scenic video/photo of that trek region + trek name + duration + difficulty + "Enquire Now" button.
- **Overview** — Short intro paragraph about the trek.
- **Quick facts strip** — Duration, max altitude, difficulty, best season, start/end point, trek type. (No price.)
- **Route map** — The infographic route map (we provide it for each trek).
- **Day-by-Day Itinerary** — Expandable/accordion list of each day with description & photo (full text in PDFs).
- **What's Included / Excluded** — Two clean columns (content in PDFs).
- **Photo gallery** — Grid of trek images.
- **Things to know** — Permits, insurance, fitness, packing notes.
- **Enquiry form + WhatsApp** — Sticky "Get a Quote" button so the price conversation happens privately.

6. Must-Have Features

Feature	Notes
---------	-------

Floating WhatsApp button	Always visible. Links to +977 9816261447. This is our #1 enquiry channel.
Enquiry / Quote forms	On every trek page + contact page. Fields: name, email, country, trek interested in, group size, preferred date, message. Sends to our email.
Scenic background videos	Per-trek, optimized, auto-play muted loop (see Section 2).
Mobile responsive	Must look perfect on phones — most of our audience is on mobile.
Fast loading	Compressed images/videos, lazy loading, good Core Web Vitals.
SEO ready	Proper titles, meta descriptions, alt text, sitemap, schema for trips. Blog for content.
Reviews section	Google/TripAdvisor style testimonials.
Social media links	Facebook & Instagram (Terrablaze Adventure).
Newsletter signup	Optional, for lead capture in footer.
Multi-currency note	Not needed since no prices shown — skip currency widgets.

7. Design Guidelines

- **Logo & brand:** We will provide the TerraBlaze logo kit (mountain mark + wordmark).
- **Colours:** Deep navy/blue (#0f3d5c), accent orange (#e8821e), white, clean greys. Matches our existing brand.
- **Style:** Clean, premium, lots of white space, big cinematic mountain imagery, easy to read.
- **Fonts:** Modern, highly readable sans-serif.
- **Reference sites:** We will share 2–3 trekking websites we like for visual direction. Please follow the overall feel but keep our brand identity.

8. Content & Assets We Will Provide

- 5 trek itinerary PDFs (full day-by-day text, includes/excludes, policies) — attached with this brief.
- Logo kit (SVG + PNG) and brand colours.
- Scenic videos for each region (Everest, Annapurna, Manaslu, Langtang).
- Trek photos and route map infographics.
- Company info, contact details, social links.

Booking/cancellation/payment policy text is in the PDFs and should go on the Legal/Terms page (not as prices).

9. Technical Preferences

Item	Preference
------	------------

Platform	Developer's recommendation (e.g. WordPress for easy blog/CMS, or custom). Please advise.
CMS	We need to add blog posts & edit trek content ourselves easily.
Domain & hosting	terrablazeadventure.com — please advise on hosting setup & SSL.
Forms	Enquiries delivered to our email + optionally WhatsApp.
Analytics	Google Analytics + Search Console setup.
Browser support	All modern browsers + mobile.

10. Please Confirm in Your Proposal

- Recommended platform & why.
- Total cost & payment milestones.
- Timeline / delivery date.
- Number of revisions included.
- Whether scenic-video backgrounds (Section 2) are included as described.
- Post-launch support & maintenance terms.
